

Polycarbonate barriers with feet

Optional bent foot

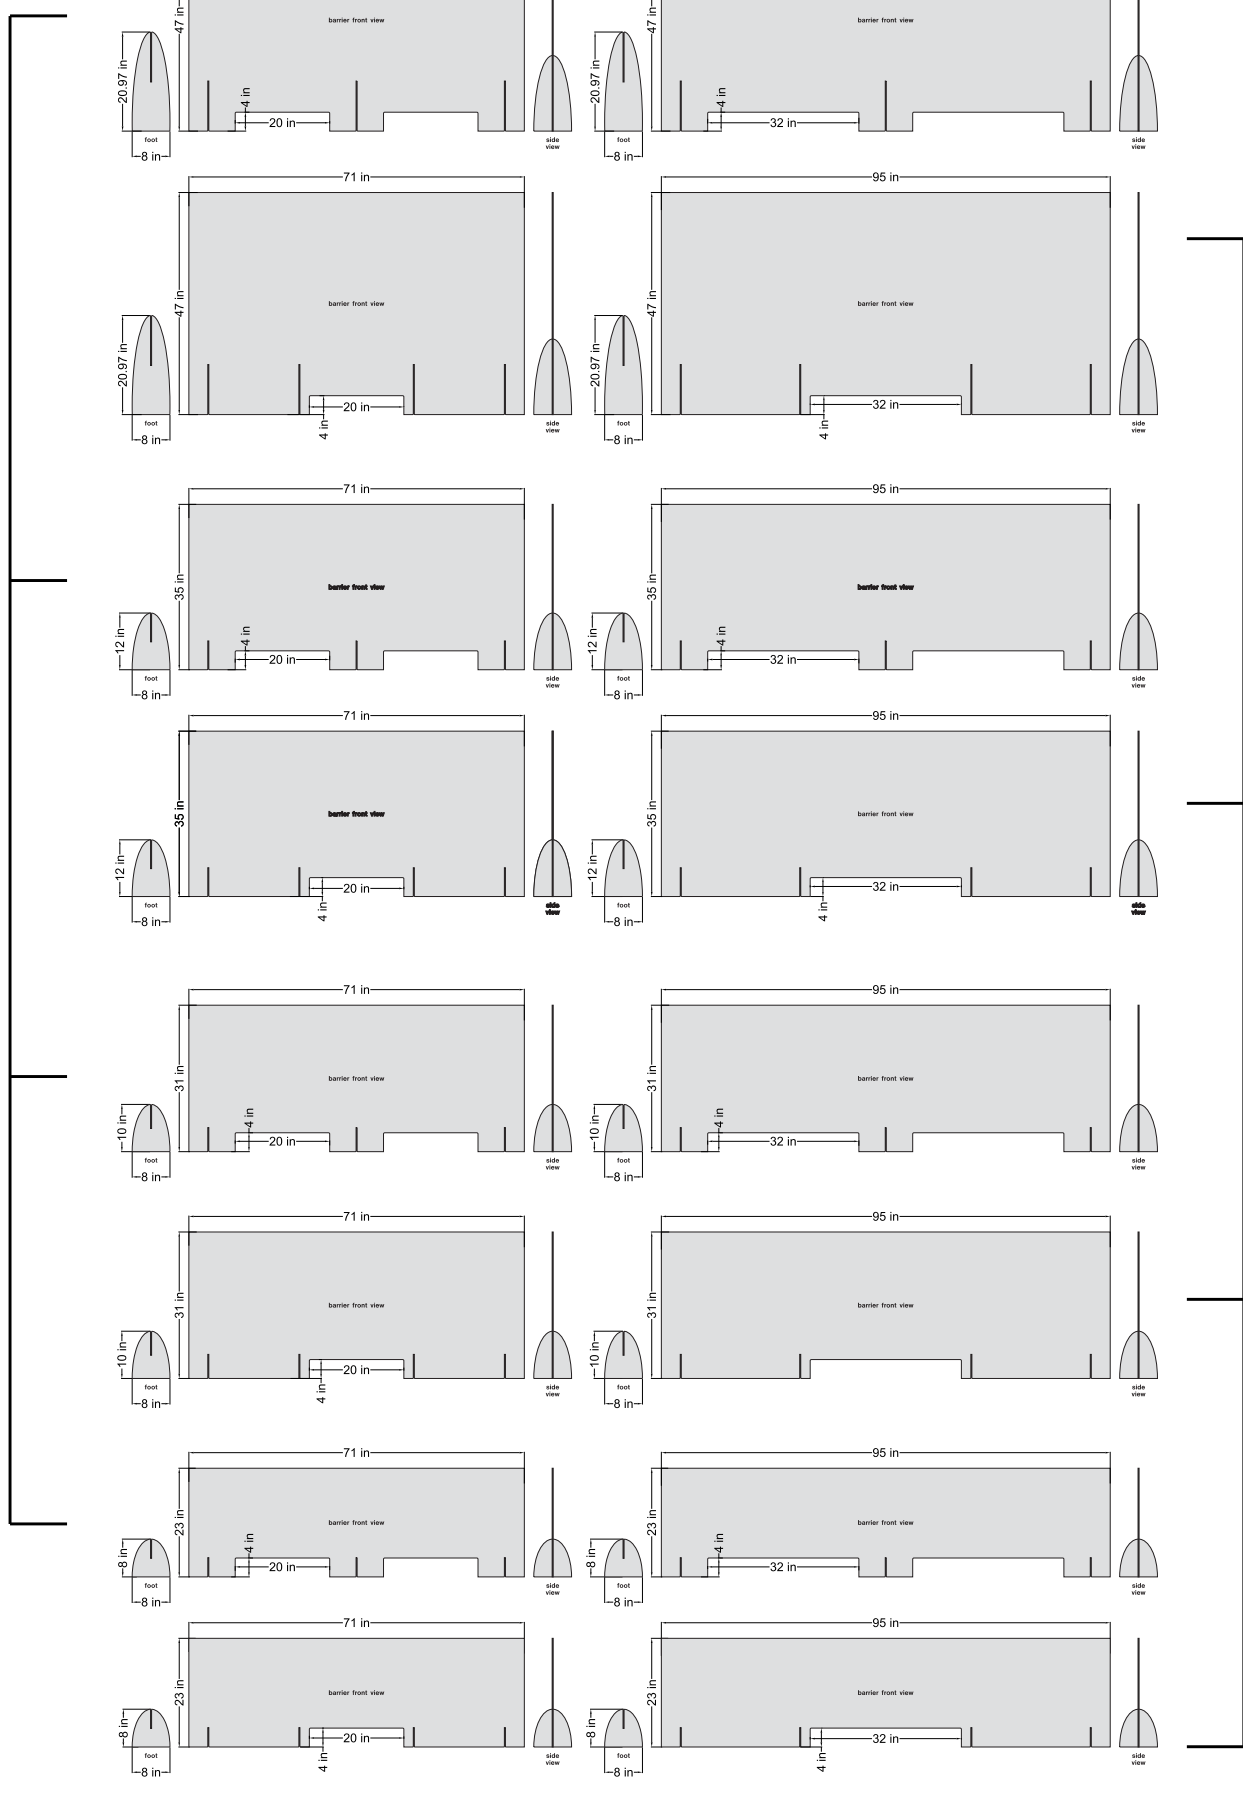

Notes:

- All panels and feet made from 1/4" polycarbonate
- All edges bullnosed and corners radiused
- Polycarbonate will not crack or shatter
- Feet are friction fit into panel with a hammer or rubber mallet
- Safe to clean with vinegar and water
- Legs are precut and stocked, panels are not cut until order

When ordering:

- Specify opening size (or none) desired when ordering
- You may specify a custom length, it will be charged out at next larger size
- Optional bent legs (pictured top) for extra tape adhesion are available
- Legs are spaced far enough in (4") to allow units to be butted up together at a corner
- Custom sizes and foot and opening placement are available but will encounter delays
